DISCUSSIONS

Review of academic year 2020-2021

- The second part of academic year 2020-2021 was online. Most of the classes were conducted through live online classes whereas pre-recorded videos were also shared with the students.
- The student strength was relatively low as there had multiple challenges in a day in the transition.
- Student feedback - was taken to challenges faced during online classes and out of the same issues identified was lack of internet connectivity. The proposed action to handle the situation is to provide the students with pre-recorded capsule video of the lecture. The lectures to be short and summaries of the topic rather than elaborate lectures.

Smooth Transition to online mode of teaching and learning

- Uniform mode of engaging classes must be identified. Learning management must be identified.
- To ensure that reading materials are shared, e-content is developed by the faculty members.
- The mode of assessment must be comprehensive and foolproof.
- Data bases must be made available remotely for which the vendors have to be approached.
