09/02/2023

As the development of the well-rounded individual is a principal goal of all the curricular as well as extracurricular activities in the college. The numerous experiences these activities afford positively impact students emotional, intellectual, social, and inter-personal development. By working together with other individuals, students learn to negotiate, communicate, manage conflict, and lead others. Taking active part in these activities helps students to understand the importance of critical thinking skill, time management and academic and intellectual competence. Students also develop leadership skills where they anchor the activities and lead the event organised in the institution. Almost all the events held in the college are compered/anchor by the students. Events organised by the students are guided by the faculty/mentors. Thus, students learn to plan, organise and conduct events at institutional, inter-institutional levels.

CLASSROOM TEACHING LEARNING SITUATIONS ALONG WITH TEACHER AND PEER FEEDBACK – 07/01/2019

The knowledge, advice, and resources a teacher faculty mentor shares depend on the format and goals of a specific mentoring relationship. A faculty shares with a mentee information about his or her own career path, as well as provide guidance, motivation, emotional support, and role modelling. The faculty also help the students with exploring careers, setting goals, developing contacts, and identifying resources. The role of the mentor changes as the needs of the mentee change. Some mentoring relationships are part of structured programs that have specific expectations and guidelines others are more informal. Methodology lecturers guide the students in classroom activities through formative assessments as well as summative. They give feedback to the teacher trainees in enhancing their skills whereby the re-teach present refined skills.

Action Taken Report

Sai B.Ed. & D.El.Ed College, understands that an effective teaching learning system followed by an educational institution needs continuous refinement. The college adopts a feedback system that takes suggestion from different stakeholders of the B.Ed. Programme. This eventually helps in fine-tune teaching learning process and curriculum. The college obtains structured feedback through online/offline mode from the following stakeholders.

- **Students**
- **Alumni**
- **Teachers**
- **POT**

At first, the feedback is taken from the above-mentioned stakeholders to reflect upon the effectiveness of curriculum (semester-wise). The parents' feedback is also taken regarding the overall functioning of the college. A Visitors' Diary is also maintained to keep a record of the reflections of the eminent resource persons for workshops/seminars/FDPS/extension lectures and guests on various functions. The suggestions are noted and shared with the principal of the college and the concerned committee, and are worked upon.

Student's Feedback

Student feedback is taken for every course in each semester and at the end of the programme to provide objective information to the faculty for self-appraisal, self-improvement and development. The college cannot change the curriculum as it is designed by the university, but can make efforts and improvements to successfully impart it. With this purpose in mind the suggestions given by students were studied and administrative committee has made an action plan to be implemented in the coming session.

- Course plans for the next year would be prepared for more effective teaching and to ensure timely completion of syllabus.
- Teachers have been advised to conduct workshops, certified programs and guest lectures by experts to fill the gaps in curriculum.
- It is proposed to hold orientation programmes for the teachers in the beginning of the session to improve the teaching standards. • Subscription of Educational Journals needed.

Action Taken

- Preparation of Unit Plans before commencement of academic session.
- Teachers conducted workshops and certified program on teaching aids started in the college.
- Teacher's attended various faculty development programmes
- More educational journals subscribed.

The feedback from the Alumni helps us to analyse the strengths and weaknesses of courses offered by the college. The college obtains feedback on curriculum to identify the needs through formal and informal interaction. The alumni members appreciated the experience gained during B.Ed., and it really proved fruitful in their teaching. The college contributed a lot in the overall development of their personality. They suggested to organise some more skill enhancement workshops for better grooming of the students to empower them for facing the diverse situations in the ever-changing global scenario.
