All students are informed about the code of conduct at the time of admission, during the Orientation Programme, and throughout the academic session in regular classes. The Principal, along with departmental teaching and non-teaching staff, monitors adherence to these guidelines individually. The Principal and the Secretary of the Governing Body supervise whether teaching and non-teaching employees are following the prescribed code of conduct. If any concern arises, it is addressed through one-to-one discussions, though no major issues have occurred so far.

## **BEST PRACTICE: I**

### **Title: Clean and Green Campus**

#### **Objectives**

1. Make the campus eco-friendly by planting more trees.
2. Use water carefully and efficiently.
3. Manage waste properly.
4. Plant and take care of trees regularly.

Keeping the college clean is important for everyone's health and safety. A clean environment sets a positive example for students and encourages them to take pride in their college. When students care about their surroundings, they are less likely to litter and will help keep the campus tidy.

At Sai B.Ed & D.El.Ed College, we aim to create an education model that promotes kindness, awareness, and care for nature. Our Green Campus Initiative started with the goal of building eco-friendly habits and making our campus sustainable. We are working to create a **plastic-free, low-waste, and energy-saving** campus that protects biodiversity and uses resources wisely. This effort is a joint responsibility of our staff, students, and local community to make our college an example of environmental responsibility.

#### **The Context**

Today, conserving the environment is more important than ever because of serious problems like pollution, deforestation, and overuse of natural resources. Humans are consuming resources faster than nature can replace them.

  
Principal  
Sai B.Ed. & D.El. Ed. College  
Siyauran, Bikramganj (Rohtas)

Sai B.Ed College has always had a strong connection with nature. Our campus includes playgrounds and gardens, and we continuously work to keep it clean and eco-friendly.

### The Practice

- Cutting trees on campus is strictly **not allowed**.
- We **plant new trees every year** and maintain an **herbal garden**.
- Our campus is **plastic-free**. We use **steel crockery** in the canteen and kitchen.
- We use **energy-efficient electrical appliances** to save power and reduce waste.
- All electrical wiring is well-protected with **MCBs** on every floor.
- We have replaced all old bulbs with **LED lights**.
- **Vehicles are not allowed** inside the campus to protect plants and animals.
- We use **solar panels** for clean energy.
- **Rainwater harvesting tanks, vermicompost pits, and separate dustbins** for different types of waste are maintained.
- **Single-sided paper** is reused for printing to reduce waste.

### Evidence of Success

- Our green campus makes the environment healthier and more beautiful. Trees provide shade and are used for educational purposes.
- We have saved a lot on **electricity bills** thanks to our energy-saving measures.
- **Water conservation** helps keep our gardens and campus green.
- **Plastic ban and composting** keep the campus clean and attractive.
- These efforts have made our college one of the **cleanest and most beautiful** in the area, attracting more students.

  
**Principal**  
Sai B.Ed. & D.El. Ed. College  
Gharuan, Bikramganj (Rohtas)

- We have completed **Green, Environmental, and Energy Audits** through a reputed agency of Mumbai.

#### **Problems Encountered and Resources Required**

- Maintaining a clean and green campus requires continuous effort and teamwork.
- We face challenges like **limited manpower** for regular maintenance.

#### **Note:**

- The college displays **environmental awareness slogans** to inspire students to protect nature.
- **Plastic bags and plastic tea cups are banned.**
- We reduce paper use by communicating through **emails and social media** instead of printed documents.
